

# Waikiki Park Heights Tour, Page 2

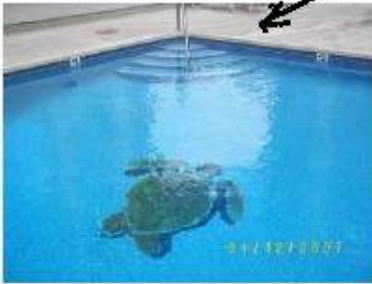

To get to the swimming pool take the elevator to the fourth floor. Exit there and cross the parking area, towards your right. You will find a short stairway which takes you down to the pool level.

To open the gate to the pool deck, use that flat elevator key. There is a shower just inside the gate, but no rest room (toilet) facilities are available near the pool. Be sure to shower before entering the pool. And be sure to dry off before entering the elevator.

Please note that there are restrooms adjoining the lobby on the main floor which can be used at any hour of the day or night.

There is a small washer/dryer in your apartment. It really isn't large enough for sheets and towels. Please launder large items in the building's coin-operated laundry. You may use your elevator key to access this facility 24 hours a day.

Please recycle aluminum, paper, plastic and glass in these bins located in the basement. And if you're thirsty, enjoy a soda!
